Dear Parent

Year 8 Design and Technology Project Work

I am sure your daughter will have told you about some of the project work she will be completing this year in her Technology lessons. Most girls are very proud of their designs and love the thought of making things to take home to show you!

In preparation for this work the school has purchased components, materials and consumable items for all students in the year. These items have cost a considerable sum of money and we therefore ask for your support by making a contribution of £10 towards the overall cost. The project work will become the property of each student when assessment is complete. Ingredients for Food Technology will still need to be brought from home, allowing flexibility of recipes to meet family tastes. Ingredients for experimental work will be provided by the department.

We are sensitive to the many financial demands that are made on parents but our aim is to provide challenging and enjoyable projects to maintain high standards of motivation and attainment. Your support will enable us to provide high quality materials and resources.

You can make your contribution using ParentPay (www.parentpay.com), our online payment system, choosing the service 'Year 8 Technology Contribution'. There is then no need to return the reply slip below. Alternatively you can send a cheque made payable to Wycombe High School with the reply slip below to the Finance Office by **Monday 28 November**. Please write your daughter's name, tutor group and 'Year 8 Technology Contribution' on the envelope and on the back of the cheque.

If you have any concerns about these arrangements please do not hesitate to contact me.

Yours sincerely

Mrs C Hill
Design and Technology Subject Leader
